

Haglöf Electronic Clinometer

A professional instrument for height and angle measuring work – and no fixed distance is required!

- Extremely Small – yet Powerful and Rugged!
- Measures Heights at any Distance!
- Display Featuring Correct Results Instantly!
- Eliminates Calculating Errors
- Easy-to-use with Quick Guide included with each instrument
- Low Battery Consumption
- Accurate and Reliable

The Haglöf
Electronic Clinometer

– A revolutionary technique allows you to measure the heights and inclination that you need, using an instrument so small, that you will never notice carrying it.

Ergonomic and precise, this innovation will be your accurate assistant for many years to come.

The New Haglöf Electronic Clinometer features your measuring results directly

in a display, processed by the instrument, eliminating any risk of calculation errors. Results will be handed to you every time as accurate and precise as you need them to be.

Needless to say, the new electronic clinometer is designed for field use, fulfilling all demands for an accurate and rugged instrument in all weather conditions. All functions run with one single key, where the number of key presses offer different functions for height or angle measuring.

Low weight – less than 50 g with battery – and well balanced makes measuring easier, and with the extremely low battery consumption, one battery can last the entire season.

Technical Specification

Size: 20 mm x 63 mm x 44 mm, 0.8" x 2.5" x 1.7"

Weight: 50 g/1.8 oz incl. battery

Battery: 1AA

Consumption: 30mW

Height: 999m/ft

Resolution: 0.1 m/ft < 100 m/ft, 1 m/ft > 100 m/ft

Accuracy angle: +-0.2°

Distance: 0-999m/ft

Meters/percent Art no HEC-MP

Meters/degrees Art no HEC-MD

Feet/percent Art no HEC-FP

Feet/degrees Art no HEC-FD
